

SMD 15" Component Reel Holder ESD

SKU: 109-507

Features & Benefits

- ◆ **4 inside partitions** for organised storage of SMD component reels.
- ◆ Designed to securely hold 15" (380mm) diameter SMD reels.
- ◆ **External steel rim** adds strength and stability to the reel holder.
- ◆ **1.4mm thick walls** for durability and secure storage.
- ◆ Specifically designed for ESD protection to prevent damage to sensitive SMD components.
- ◆ The robust construction features an external steel rim for added durability, while the 1.4mm thick walls ensure the holder can withstand frequent use in demanding environments

About the SMD 15" Component Reel Holder ESD

The SMD Component Reel Holder is an essential storage solution for 15" (380mm) diameter SMD reels, providing a reliable and secure method of organising your SMD component reels.

Designed with 4 inside partitions, this reel holder allows you to neatly store and categorise your SMD reels, ensuring easy access and preventing damage. The robust construction features an external steel rim for added durability, while the 1.4mm thick walls ensure the holder can withstand frequent use in demanding environments. This high-quality SMD component reel holder is designed specifically for ESD protection, safeguarding your SMD components from static damage.

Dimensions:

EXTERNAL: 500mm Length, 385mm Width, 175mm Height

INTERNAL: 485mm Length, 370mm Width, 173mm Height

Specifications

Property	Detail
External dimensions	500mm
Internal dimensions	485mm
Application	ESD-protected areas, electronics mfg, cleanrooms
