

SMD 7" Component Reel Holder ESD

SKU: 109-500

Features & Benefits

- ◆ Designed to store up to 36 x 7" reels for efficient SMD reel storage.
- ◆ Features **inside partitions** for organised and accessible storage of SMD component reels.
- ◆ **External steel rim** adds extra strength and durability.
- ◆ 1.4mm thick walls for long-lasting, secure storage.
- ◆ Ideal for ESD protection, ensuring SMD components are safe from static damage.
- ◆ Featuring inside partitions, it efficiently stores up to 36 x 7" reels, providing optimal organisation and easy access to your SMD reels

About the SMD 7" Component Reel Holder ESD

The SMD Component Reel Holder is a high-quality storage solution designed for organising 7" (180mm) diameter SMD component reels.

Featuring inside partitions, it efficiently stores up to 36 x 7" reels, providing optimal organisation and easy access to your SMD reels.

Constructed with an external steel rim for added durability, the holder ensures long-lasting use while maintaining stability.

The 1.4mm thick walls offer robust protection, while the holder's compact design and external dimensions of 500mm length, 200mm width, and 116mm height make it ideal for small-to-medium scale storage.

Specifications

Property	Detail
External dimensions	500mm
Internal dimensions	482mm
Application	ESD-protected areas, electronics mfg, cleanrooms
