

# SMD Splice Tool 8 - 44mm Tapes

SKU: G-HST-4

## Features & Benefits

- ◆ Designed for joining 8-44mm SMD component tape reels
- ◆ Works with splice clips for secure and precise tape splicing
- ◆ Enables smooth, uninterrupted production flow
- ◆ Ideal for SMD and automated assembly applications
- ◆ Easy-to-use tool for efficient tape reel handling

## About the SMD Splice Tool 8 - 44mm Tapes

The SMD Splice Tool is specifically engineered to join 8-44mm component tape reels seamlessly using splice clips, providing a quick and efficient solution for tape reel splicing.

Ideal for SMD (Surface-Mount Device) applications, this tool ensures that tapes are securely connected, allowing uninterrupted production processes.

It's a must-have for assembly lines that require smooth, continuous tape handling without the risk of component misalignment.

## Specifications

| Property    | Detail   |
|-------------|--|
| Application | ESD-protected areas, electronics mfg, cleanrooms |
