

SMT DOUBLE Splice Tape (8, 12, 16, 24mm)

SKU: G-TDS | Sizes: 8mm Double / 500 pcs, 12mm Double / 500 pcs, 16mm Double / 500 pcs, 24mm Double / 250 pcs

Features & Benefits

- ◆ Available in 8mm, 12mm, 16mm, and 24mm widths
- ◆ High-quality double splice tape for secure and efficient tape joining
- ◆ Yellow colour for easy visibility and handling
- ◆ Suitable for use with all major SMD pick-and-place feeders
- ◆ Ensures smooth, uninterrupted feeding during automated assembly
- ◆ Ideal for high-volume SMT production lines

About the SMT DOUBLE Splice Tape (8, 12, 16, 24mm)

This premium quality SMT Double Splice Tape is designed for joining the cover tape of component tape reels, ensuring a secure and seamless connection for smooth reel transitions in automated assembly processes.

Available in multiple widths (8mm, 12mm, 16mm, and 24mm), this tape is ideal for various component sizes and is coloured yellow for easy visibility during handling.

It's the perfect solution for maintaining continuous feeding in high-volume SMT (Surface-Mount Technology) production lines.
