

STAR S1PL FO SR ESD Safety Shoe

SKU: GS-STAR

Features & Benefits

- ◆ **Low safety shoe** made from high-tenacity fibre, breathable Dura® fabric, and B-tech microfibre (1.8-2.0 mm thick)
- ◆ **Soft, lined, and padded tongue** for extra comfort
- ◆ **Flexible PL midsole** with antiperforation composite fabric
- ◆ **3Cloud sole** with three-density polyurethane for shock absorption, slip resistance, and hydrolysis resistance
- ◆ **Hydrocarbon and abrasion resistance** for enhanced durability

About the STAR S1PL FO SR ESD Safety Shoe

The STAR S1PL FO SR Giasco ESD safety shoe delivers outstanding durability, comfort, and protection in demanding environments.

Constructed from high-tenacity fibre, breathable Dura® technical fabric, and B-tech microfibre (1.8-2.0 mm thick), this low safety shoe ensures both long-lasting wear and resistance to abrasion.

The soft, padded tongue enhances comfort, while the completely metal-free design meets strict electrical resistance (ESD) standards. With a 200J polymeric composite toecap and flexible PL midsole, this shoe offers excellent protection against impact and puncture hazards. The 3Cloud sole provides superior shock absorption, slip resistance, and protection against hydrocarbons and abrasion, making it ideal for industrial and technical work settings.

Specifications

| Property | Detail |
|-------------|--|
| ESD Class | Yes |
| Toecap | 200J polymeric composite toecap for enhanced protection |
| Insole | DryGo!® with moisture-wicking, antibacterial, and ESD-compliant properties |
| Sizes | 36-47 |
| Application | ESD-protected areas, electronics mfg, cleanrooms |
