

# SYNTHPOP ESD Safety Trainer

SKU: GS-SYNTHPOP

## Features & Benefits

- ◆ **Lightweight, Unisex ESD Shoe**
- ◆ **High-Quality Italian-Made Footwear** – Crafted with attention to detail for both comfort and performance.
- ◆ **Anatomic Footbed** – Scented polyurethane, holed for breathability and comfort, with low electrical resistance for added safety.

## About the SYNTHPOP ESD Safety Trainer

### Synthpop ESD Safety Trainer – High-Quality Italian-Made Footwear

The Synthpop ESD Safety Trainer combines the perfect blend of style, comfort, and ESD safety in a high-quality Italian-made design. Whether you're in the electronics, pharmaceutical, or any other electrostatic-sensitive environment, this trainer ensures reliable protection without compromising on comfort.

Certified to EN ISO 20345:2011, the Synthpop offers metal-free construction with a 200J composite toecap, providing protection against impacts while remaining lightweight. The microfibre upper with punched suede-like finish offers both breathability and abrasion resistance. Equipped with a polyurethane/TPU sole designed for low electrical resistance, the Synthpop offers exceptional traction and stability, ensuring safety in ESD-sensitive environments.
