

Semi-Automatic Splice Tool

SKU: G-HST-7

Features & Benefits

- ◆ Holds 20 Bandolier Brass Shims
- ◆ Provides secure tape jointing
- ◆ Stapler-style hand tool design
- ◆ Durable steel construction
- ◆ Ergonomic handle for comfort
- ◆ Suitable for all SMT materials

About the Semi-Automatic Splice Tool

The Semi-Automatic Splice Tool is designed to make tape jointing faster, easier, and more reliable.

By holding 20 Bandolier Brass Shims, it eliminates the need for handling individual shims, saving time and improving efficiency. Built from durable steel with a stapler-style design, it offers long-lasting performance and ease of use, while the ergonomic handle provides added comfort.

Compatible with all types of SMT material, it ensures secure and consistent splicing for seamless operations.

Compatible with:

- SMD Brass Splice Clips on Frame
- ESD SMT Trolley/Splice Cart
