

Silica Gel Bags

SKU: 101-002 | Sizes: 1gm/30 x 50mm/Pk Qty: 4000, 5gm/30 x 80mm/Pk Qty: 1500, 25gm/100 x 95mm/Pk Qty: 300, 50gm/85 x 110mm/Pk Qty: 200

Features & Benefits

- ◆ Economical solution for protecting against moisture damage during transit and storage
- ◆ Non-indicating beaded silica gel with capacities from 1g to 50g
- ◆ Absorption capacity of approximately 25% by weight at 50% relative humidity and 25°C
- ◆ Ideal for general packaging, electrical/electronic enclosures, and communications equipment
- ◆ **Colour Change Indicator Card** available for visual humidity level monitoring
- ◆ Provides an easy check to ensure desiccant remains active and effective
- ◆ This feature helps verify that the desiccant is still active and functioning correctly, giving you peace of mind that your products are being stored in optimal conditions

About the Silica Gel Bags

The use of **Silica Gel Desiccant Bags** offers an economical and effective solution for protecting products from moisture damage during transit and storage.

These bags are filled with non-indicating beaded silica gel desiccant, with capacities ranging from 1g to 50g, ensuring a suitable option for various packaging needs.

Silica gel desiccant is synthetically produced from sodium silicate and boasts an absorption capacity of approximately 25% by weight at 50% relative humidity and 25°C, making it highly effective at absorbing moisture and maintaining a dry environment. These bags are ideal for a wide range of applications, including general packaging, electrical/electronic enclosures, and communications equipment, ensuring that sensitive products are protected from moisture-related damage.

For added assurance, a **Colour Change Indicator Card**, can be included, providing a visual indication of the relative humidity level within the packaging or enclosure. This feature helps verify that the desiccant is still active and functioning correctly, giving you peace of mind that your products are being stored in optimal conditions.

These Silica Gel Desiccant Bags are a reliable, cost-effective solution for moisture control in sensitive products, helping to prevent potential damage caused by humidity.
