

Small Oval Head ESD Semi Flush Cutter

SKU: G-HT-C11

Features & Benefits

- ◆ **ESD Safe:** Safeguards sensitive electronic components from electrostatic discharge.
- ◆ **Small Oval Head:** Perfect for precision cutting in tight or intricate spaces.
- ◆ **Semi Flush Cutter:** Provides clean, semi-flush cuts for a professional finish.
- ◆ **Laser Cut Design:** Guarantees precision and durability for long-lasting performance.
- ◆ **Cutting Edge Hardness (62 HRC):** Ensures a sharp, durable cutting edge.
- ◆ **C70 Hardened Steel:** High-quality steel that offers strength and reliability.
- ◆ **Bi-Component Handles:** Comfortable supersoft grips for improved ergonomics during use.
- ◆ Featuring a small oval head and supersoft bi-component handle grips, this cutter provides optimal comfort and control while making precise cuts

About the Small Oval Head ESD Semi Flush Cutter

The Small Oval Head ESD Semi Flush Cutter is a precision tool designed for use in ESD-sensitive environments.

Featuring a small oval head and supersoft bi-component handle grips, this cutter provides optimal comfort and control while making precise cuts.

With a 1.2mm cutting capacity for copper wire, it delivers clean, semi-flush cuts that are perfect for delicate electronic work and assembly. ESD safe, it protects sensitive components from electrostatic discharge, making it a reliable choice for professionals in the electronics industry.

Specifications

Property	Detail
Cutting Capacity	1.2mm
Tool Length	115mm
Application	ESD-protected areas, electronics mfg, cleanrooms
