

Solder conveyor finger 01

SKU: 580-301NM

Features & Benefits

- ◆ Manufactured for use with Electrovert wave solder machines
- ◆ Made from high-quality titanium for excellent heat resistance and long-lasting durability
- ◆ Ensures smooth and precise transport of PCBs through the soldering process
- ◆ Ideal for high-performance, high-volume soldering applications
- ◆ Provides reliable, consistent performance in tough wave soldering conditions

About the Solder conveyor finger 01

This Solder Conveyor Finger 01 is designed specifically for use with Electrovert wave solder machines.

Made from high-quality titanium, it offers superior durability, heat resistance, and wear resistance, ensuring reliable performance in demanding wave soldering environments.

The titanium construction allows for smooth, precise handling of PCBs, contributing to consistent and efficient soldering results, even in high-volume production settings.
