

Solder conveyor finger 03

SKU: 580-300NM

Features & Benefits

- ◆ Designed for Blundell wave solder machine conveyors
- ◆ Made from high-quality titanium for superior heat resistance and long-lasting durability
- ◆ Ensures smooth and precise PCB transport during wave soldering
- ◆ Ideal for high-performance, high-volume soldering applications
- ◆ Reliable and consistent performance in tough soldering conditions

About the Solder conveyor finger 03

The Solder Conveyor Finger 03 is specifically designed for use with Blundell wave solder machine conveyors.

Made from high-quality titanium, this component offers excellent durability and heat resistance, ensuring reliable performance even in the most demanding wave soldering environments.

Its robust titanium construction guarantees smooth and precise PCB transport, contributing to consistent and efficient soldering results, ideal for high-volume production lines.
