

Solder conveyor finger 05

SKU: 580-305NM

Features & Benefits

- ◆ Specifically designed for the Electrovert® Wave Solder Machine
- ◆ Constructed from high-quality titanium for superior heat resistance and durability
- ◆ Guarantees smooth PCB transport through the wave soldering process
- ◆ Ideal for high-performance and high-volume soldering applications
- ◆ Ensures reliable, long-lasting performance in tough soldering environments

About the Solder conveyor finger 05

This Solder Conveyor Finger 05 is designed specifically for the Electrovert® Wave Solder Machine, crafted from high-quality titanium to ensure exceptional strength and resistance to heat and wear.

The titanium material enhances durability, making it ideal for the demanding conditions of wave soldering.

This conveyor finger ensures smooth and precise handling of PCBs, contributing to consistent and reliable performance in high-volume soldering operations.
