

Soldering Pencil TSS31A for TS2200

SKU: GQ-TSS31A

Features & Benefits

- ◆ **Real-Time Tip Temperature Monitoring:** Offers precise and accurate temperature control for optimal soldering results.
- ◆ **Rapid Thermal Recovery:** Provides quick heat-up and recovery to keep your workflow efficient.
- ◆ **Easy Tip Replacement:** Simple and convenient tip changes, allowing for flexibility with different soldering needs.
- ◆ **Lead-Free Soldering:** Designed for professional lead-free soldering tasks.
- ◆ **Compatible with TS2200 Soldering Station:** Seamlessly integrates with the TS2200 for an efficient soldering setup.
- ◆ **Compatible with H1901A Heating Element and S1901A Sensor:** Enhances the soldering experience with additional compatible parts for reliable performance.
- ◆ The easy tip replacement feature enhances convenience and versatility for various soldering projects

About the Soldering Pencil TSS31A for TS2200

The Quick TSS31A Soldering Pencil is designed for use with the TS2200 Soldering Station, providing an intelligent and efficient solution for lead-free soldering applications.

This 90-watt soldering pencil is perfect for handling the everyday challenges of most soldering tasks, ensuring consistent soldering quality and high performance. With real-time tip temperature monitoring and rapid thermal recovery, the TSS31A ensures precise control and fast recovery times. The easy tip replacement feature enhances convenience and versatility for various soldering projects.

Compatible with:

- TS2200 Soldering Station
- H1901A Heating Element
- S1901A Sensor

Specifications

Property	Detail
Power Supply	90W
Application	ESD-protected areas, electronics mfg, cleanrooms
