

Soldering Pencil TSS31B for TS2300D

SKU: GQ-TSS31B

Features & Benefits

- ◆ **Real-Time Tip Temperature Monitoring:** Ensures precise control and accurate temperature feedback during soldering.
- ◆ **Rapid Thermal Recovery:** Heats up quickly and recovers fast, improving efficiency and consistency in every soldering task.
- ◆ **Easy Tip Replacement:** Simplifies tip changes, allowing you to work with a variety of tips for different soldering jobs.
- ◆ **Lead-Free Soldering:** Ideal for professional lead-free soldering tasks.
- ◆ **Compatible with TS2300D Soldering Station:** Integrates seamlessly for a powerful, efficient soldering system.
- ◆ **Compatible with H1205A Heating Element:** Enhances soldering performance with a reliable heating element.
- ◆ **Works with Series 500 Tips:** Compatible with a wide range of tips to cater to different soldering applications.
- ◆ The easy tip replacement feature adds convenience, allowing users to quickly switch tips based on their soldering needs

About the Soldering Pencil TSS31B for TS2300D

The Quick TSS31B Soldering Pencil is designed for use with the TS2300D Soldering Station, offering a powerful 150-watt power supply that meets the demands of professional soldering tasks.

This intelligent, lead-free soldering pencil ensures consistent and high-quality soldering performance with real-time tip temperature monitoring and rapid thermal recovery. The TSS31B is built for efficiency, providing quick heat-up and maintaining optimal temperature control for a wide range of applications. The easy tip replacement feature adds convenience, allowing users to quickly switch tips based on their soldering needs.

Compatible with:

- TS2300D Soldering Station
- H1205A Heating Element
- Series 500 Tips

Specifications

Property	Detail
Power Supply	150W
Application	ESD-protected areas, electronics mfg, cleanrooms
