- ◆ **Custom colours available at an extra cost—please specify at checkout**

## About the Standard Double Drawer

**Our complete drawer and cupboard range is expertly designed with the workstation user in mind, offering both ergonomic convenience and exceptional storage efficiency.**

Featuring a stainless steel handle that is asymmetrically fitted for ease of use, the lock is positioned for quick access and operator convenience.

The drawers can support up to a substantial 50kg with divisible A.B.S. or steel inners for enhanced load capacity. The double runner ball bearing slides are fully enclosed, ensuring smooth and safe drawer operation.

With a wide selection of coloured side and escutcheon panels, these drawers and cupboards provide a smart storage solution that complements any workstation.

**Size (WxHxD): 440mm x 325mm x 540mm.**

Available in standard colours like RAL6029 Green, RAL5015 Blue, RAL3020 Red, and BS|8B25 Grey, these units can be customised at an additional cost.

**Please specify your preferred colour/code at checkout.**
