

Standard F.L. Adjustable Workstations 2000mm

SKU: GB-S-FL20 | Sizes: 450mm, 600mm, 750mm, 900mm

Features & Benefits

- ◆ **Height Adjustable:** The workstation height can be adjusted between 760mm, 840mm, 880mm, and 920mm for optimal working comfort.
- ◆ **Superior Load Capacity:** Designed to handle higher loads with excellent stability, perfect for demanding environments.
- ◆ **Modular Design:** Offers complete flexibility to integrate upper and lower workstation accessories, allowing the workbench to evolve into a fully ergonomic workstation.
- ◆ **Accessory Compatibility:** Accessories such as drawers and cupboards are compatible with both standard and E.S.D. configurations.
- ◆ **40mm Location Holes:** Accepts rear support posts for additional upper-bench accessories, enabling further customisation.
- ◆ **Worktop Options:** Available in a range of finishes including Quicksilver Grey laminate, Grey/Blue Marmolium, M.D.F., and Trespa® for different applications.
- ◆ **Adjustable Feet:** Ensures easy levelling of the workstation to maintain optimal stability.
- ◆ **Colour:** Finished with a durable powder coat in BS4800 - 00A05 GREY.

About the Standard F.L. Adjustable Workstations 2000mm

The Standard F.L. Adjustable workbench offers enhanced flexibility and exceptional load-bearing capabilities, making them perfect for tasks requiring higher carrying capacities and stability.

Designed with a leg-on-each-corner construction, the F.L. range ensures superior stability, even under heavy loads.

The manually height-adjustable design provides the added benefit of tailoring the bench height to suit various tasks and individual ergonomic needs.
