- ◆ **Custom colours available at an extra cost—please specify at checkout**
- ◆ Featuring a stainless steel handle that is asymmetrically fitted, these drawers provide easy access and usability, with the lock conveniently positioned towards the operator

About the Standard Triple Drawer

Our complete drawer and cupboard range has been meticulously designed with the workstation user in mind, offering ergonomic storage solutions that enhance both efficiency and convenience.

Featuring a stainless steel handle that is asymmetrically fitted, these drawers provide easy access and usability, with the lock conveniently positioned towards the operator.

The drawers are capable of holding up to an impressive 50kg with divisible A.B.S. or steel inners for superior strength and load capacity.

The double runner ball bearing slides are fully enclosed, ensuring smooth, quiet, and safe operation.

With a range of coloured side and escutcheon panels, these drawers and cupboards are the ideal storage solution for any workstation, adding both functionality and aesthetic appeal.

Size (WxHxD): 440mm x 225mm x 540mm.

Available in RAL6029 Green, RAL5015 Blue, RAL3020 Red, and BS|8B25 Grey, with custom colour options available at an additional cost.

Please specify your desired colour/code at checkout.
