

# Staticide Hand Lotion 236ml ESD

SKU: 301-152

## Features & Benefits

- ◆ **ESD Safe:** Ideal for use in environments where static control is crucial, ensuring no interference with electronic components.
- ◆ **Moisturising:** Keeps the skin hydrated while protecting against dryness, ideal for long-term use in precision work environments.
- ◆ **Non-Acidic:** Gentle on the skin, suitable for frequent application without irritation.
- ◆ **Free from Harmful Additives:** No glycerine, silicone, lanolin, or mineral oil, ensuring a cleaner, non-contaminating formula.
- ◆ **Quick Absorption:** The lotion absorbs quickly into the skin, leaving no greasy residue, allowing you to resume work without delay.
- ◆ **Convenient Size:** 236ml bottle, perfect for desk-side use, on-the-go, or for keeping in your tool kit.
- ◆ **Workplaces with ESD Sensitivity:** Helps maintain wrist strap effectiveness while moisturising your skin.
- ◆ **Electronics Manufacturing:** Great for environments where skin contact with sensitive components is frequent.
- ◆ **Precision and Industrial Work:** Suitable for any setting requiring skin care without the risk of contamination.

## About the Staticide Hand Lotion 236ml ESD

Staticide Hand Lotion is a skin-moisturising lotion designed to enhance wrist strap performance while preventing static build-up. Perfect for environments where electrostatic discharge (ESD) safety is critical, this lotion helps maintain moisture levels without compromising the performance of wrist straps or causing contamination.
