

Storage Box G-SK4H ESD

SKU: G-SK4H-

Features & Benefits

- ◆ ESD-safe packaging to protect sensitive components.
- ◆ Open-front design for easy access to 7" SMD reel components.
- ◆ Customisable with modular accessories for optimal storage.
- ◆ Can be subdivided lengthways or sideways for efficient organisation.
- ◆ Equipped with options for viewing panels and dust protection.
- ◆ Ideal for component storage and organisation in electronics.
- ◆ Designed with the latest generation of ESD storage boxes, this model features an open front for maximum accessibility and ease of use

About the Storage Box G-SK4H ESD

The G-SK4H Storage Box is the perfect solution for organising your 7" SMD reel components.

Designed with the latest generation of ESD storage boxes, this model features an open front for maximum accessibility and ease of use. Offering unmatched flexibility and functionality, the G-SK4H can be easily customised with a range of modular accessories, making it ideal for both lengthways and sideways subdivision.

The ESD-safe packaging box ensures your sensitive components remain protected from static, while options like viewing panels, dust protection, and labelling capabilities make organisation and identification simple.

Sized at **35 x 21 x 20 cm**, this storage box is the perfect choice for keeping your electronic components safe and easily accessible.
