

Striped Gloves ESD (10 Pairs)

SKU: G-G101B | Sizes: Small, Medium, Large, Extra Large

Features & Benefits

- ◆ Low-cost ESD gloves with excellent anti-static properties
- ◆ Made from 100% polyester with conductive carbon lines every 10mm for effective ESD control
- ◆ Surface resistivity of 10^{10} ohms to protect against electrostatic discharge
- ◆ Lightweight, flexible, and comfortable for precise work and handling of electronic components
- ◆ Sold in **packs of 10 pairs** for convenience and bulk purchasing
- ◆ Ideal for use in ESD-protected areas and electronics assembly
- ◆ Provides reliable electrostatic discharge protection without compromising dexterity

About the Striped Gloves ESD (10 Pairs)

Our Striped ESD Gloves offer a low-cost solution for static-sensitive environments, providing excellent anti-static properties and enhanced dexterity for handling electronic components.

Made from 100% polyester with a conductive carbon line every 10mm, these gloves ensure effective electrostatic discharge (ESD) protection while maintaining flexibility and comfort. With a surface resistivity of 10^{10} ohms, these gloves offer a reliable level of protection for environments where static discharge must be controlled.

Sold in **packs of 10 pairs**, these gloves are an affordable and practical choice for use in ESD-protected areas, electronics assembly, and general static-sensitive work.
