About the Swann-Morton Blade Remover - Non Sterile 100/Box

The Swann-Morton Blade Remover is designed for safe and efficient removal of scalpel blades from both No.3 and No.4 handles. This single-use, non-sterile plastic tool ensures secure handling and reduces the risk of accidental cuts during blade removal. Perfect for medical professionals, it comes in a **box of 100**, offering great value and convenience for high-volume use.
