- ◆ Durable and high-quality construction for long-lasting use
- ◆ Black colour for a professional appearance
- ◆ Suitable for tape widths of 1" and 3" with a core diameter of 75mm
- ◆ This durable, high-quality dispenser features the ESD warning symbol, clearly indicating its compliance with ESD safety standards

## About the Tape Dispenser ESD

The ESD Tape Dispenser is designed for use within an EPA (Electrostatic Protected Area), ensuring that ESD-sensitive components are handled safely and efficiently.

This durable, high-quality dispenser features the ESD warning symbol, clearly indicating its compliance with ESD safety standards. With a sleek black colour, it blends seamlessly into any professional environment.

The dispenser accommodates tape widths of 1" and 3", with a core diameter of 75mm, making it compatible with a wide range of tapes.

The width of available tape spacing is 40mm, providing versatility for different applications. Its compact and sturdy design (80 x 110 x 200mm) ensures reliable performance while keeping your workspace organised and safe from electrostatic damage.
