

V200/250 50mm ESD Stay Put Arm C/W NOZZLE

SKU: 503-460

Features & Benefits

- ◆ 790mm arm length for flexible positioning and secure extraction
- ◆ Designed for tip/volume extraction to capture fumes effectively
- ◆ ESD-safe construction for use in sensitive environments
- ◆ Compatible with BOFA V200 and V250 50mm duct fume extractors
- ◆ Perfect for precise and reliable fume extraction in single-user applications

About the V200/250 50mm ESD Stay Put Arm C/W NOZZLE

The BOFA ESD 50mm Stay Put Arm with Nozzle is designed to offer precise and flexible fume extraction for tip/volume applications in ESD-sensitive environments.

With a 790mm arm length, this arm ensures optimal airflow and efficient fume capture, making it an essential component for use with the BOFA V200 and V250 50mm duct fume extractors.

Its durable and flexible design makes it ideal for single-user workstations requiring reliable fume control.
