

# V250 Dual Arm High Volume Extraction Kit

SKU: 503-450

## Features & Benefits

- ◆ **Set Up for Two Operators:** Comes with an extraction arm and installation kit for easy setup for two operators.
- ◆ **Low Noise Level:** Operates quietly, ideal for environments with varying production demands.
- ◆ **Comprehensive Filtration:** Features 99.97% HEPA filtration and a combined HEPA/Gas filter for effective particulate and gas removal.
- ◆ **Portable and Flexible:** Minimal installation allows the system to be moved with the workbench when factory layouts change.
- ◆ **Granulated Carbon Gas Kit:** Ensures effective filtration of gases and odours.
- ◆ **Efficient Pre-Installed Filters:** Comes ready to go with pre-installed filters; genuine BOFA replacements available.
- ◆ **Additional Features:** Includes a unique flip-top flush sealing mounting plate and a Filter Blocked Indicator for easy maintenance.
- ◆ This system is equipped with everything needed to set up two operators with ease, featuring a Stay Put extraction arm and an installation kit
- ◆ It also features a Granulated Carbon Gas Kit, Filter Blocked Indicator, and an optional remote airflow control for enhanced performance

## About the V250 Dual Arm High Volume Extraction Kit

The BOFA V250 Solder Fume Extraction System is a portable and highly versatile solution designed to effectively extract fumes generated during hand soldering processes in the electronics industry.

This system is equipped with everything needed to set up two operators with ease, featuring a Stay Put extraction arm and an installation kit.

With minimal installation, it can be easily relocated along with the workbench when production layouts change.

The system includes a combined HEPA/Gas filter and provides 99.97% HEPA filtration, making it ideal for factories with changing production demands. It also features a Granulated Carbon Gas Kit, Filter Blocked Indicator, and an optional remote airflow control for enhanced performance.

### Compatible with:

- Pre Filter (5 pack)
- Heavy-duty Pre Filter (5 pack)
- Combined HEPA/Gas Filter
- Double Gas Filter

## Specifications

Property	Detail
Dimensions	420 x 290 x 270 mm
Application	ESD-protected areas, electronics mfg, cleanrooms
