

V600 Hose Kit - For 50mm Arms

SKU: 503-583

Features & Benefits

- ◆ Designed for use with the BOFA V600 extraction unit
- ◆ Includes flexi hoses, T piece, and bench mounting parts (Stay Put arm not included)
- ◆ Allows connection of up to five 50mm arm kits to one V600 unit
- ◆ Enables a maximum of five arm positions when using the 50mm hose kit
- ◆ Attaches to the 75mm V600 rear ports for efficient extraction
- ◆ Neatly positions pipework under workbenches, secured with wall clips
- ◆ Compatible with either a side bench clamped plate or 50mm flip-cover inlet valve
- ◆ Ideal for industrial fume extraction systems requiring multiple arms

About the V600 Hose Kit - For 50mm Arms

The BOFA V600 Extraction 50mm Hose Kit is a complete solution designed for the BOFA V600 extraction unit, ideal for environments requiring 50mm or 32mm Stay Put arms.

This comprehensive kit includes flexi hoses, a T piece, and bench mounting parts (Stay Put arm not included), allowing you to connect up to five 50mm arm kits to a single V600 unit.

With the ability to neatly position pipework under workbenches and secure it using wall pipe clips, this hose kit enhances the efficiency of your fume extraction system, supporting a flexible and organised workspace.

If using a 50mm hose kit, this will allow a maximum of 5 arm positions to be used. (If using instead the 75mm hose kit then a maximum of 2 arm positions - see 75mm kit A1020375).
