

Vision Mantis Compact and accessories

SKU: 507-1 | Sizes: Mantis Compact Head (MCH001), Universal Stand (MCS005), Articulated Arm Stand (MCF001), LED Array V2 (MCLED001B), Bench Stand (MBS202), X2 Lens (MCO002), X4 Lens (MCO004), X6 Lens (MCO006), X8 Lens (MCO008), Mantis Compact UV Head (MCH002)

Features & Benefits

- ◆ **Quick-change magnification options:** 2x, 4x, 6x, and 8x
- ◆ Ergonomic design for fatigue-free, comfortable viewing
- ◆ Superb hand-eye coordination for precise inspection and manipulation
- ◆ Long working distance and wide field of view for increased visibility
- ◆ True colour, LED illumination for up to 10,000 hours of shadow-free viewing
- ◆ Variety of stands to suit different applications
- ◆ Patented eyepiece-less optical technology for excellent 3D imaging
- ◆ Ideal for tasks requiring high precision, such as electronics inspection and dental rework
- ◆ Supports users wearing glasses for added convenience
- ◆ Enhanced productivity and quality control with minimal fatigue

About the Vision Mantis Compact and accessories

The Vision Mantis Compact and its accessories provide an ergonomic, fatigue-free solution for low magnification visual inspection tasks.

Perfect for environments where bench magnifiers have traditionally been used, the Mantis Compact excels in offering superior 3D imaging with its patented eyepiece-less technology.

With quick-change magnification options and long working distance, this microscope ensures outstanding hand-eye coordination for inspection and manipulation tasks.

Ideal for industries such as electronics, dental rework, and biological research, the Mantis Compact boosts productivity while reducing operator fatigue.
