- ◆ Mantis Elite-Cam variant with integrated USB2.0 digital camera for digital inspection
- ◆ Award-winning design for optimal ergonomics and user comfort
- ◆ Ideal for a variety of industries, including electronics, medical, and research

About the Vision Mantis Elite and Accessories

The Vision Mantis Elite and its accessories provide an ergonomic, high-performance alternative to traditional stereo microscopes.

This eyepiece-less microscope offers superior 3D imaging with magnification options up to 20x, ideal for a wide range of precision inspection, manipulation, and preparation tasks.

Its patented optical technology ensures remarkable comfort, hand-eye coordination, and the freedom to wear glasses.

The Mantis Elite is designed to reduce operator fatigue, improve productivity, and deliver enhanced quality, making it the preferred choice for professionals requiring detailed and accurate magnification.
