

# Wall Mounted Bracket - Test Station ESD

SKU: 106-101

## Features & Benefits

- ◆ Designed for use with the Footwear Test Plate for accurate testing
- ◆ Ensures secure and organised testing in controlled environments
- ◆ Sturdy construction for long-lasting performance
- ◆ Space-saving design for professional and industrial use

## About the Wall Mounted Bracket - Test Station ESD

The Wall Mounted Bracket is an essential component for creating an efficient test station for ESD (Electrostatic Discharge) environments.

**Designed to be used in conjunction with the Footwear Test Plate**, this durable bracket ensures secure mounting and easy accessibility for testing ESD footwear.

The Wall Mounted Bracket helps maintain an organised and space-efficient testing area, making it ideal for laboratories, production lines, and other controlled environments.

Its sturdy construction supports reliable performance, while the compatibility with the **Footwear Test Plate** ensures accurate measurements for ESD compliance. When used together, the bracket and test plate provide a comprehensive solution for testing ESD safety equipment.

## Specifications

Property	Detail
ESD Class	Yes
Application	ESD-protected areas, electronics mfg, cleanrooms
