

Weller Erem 884EPCM Side Cutter ESD

SKU: E-884EPCM

Features & Benefits

- ◆ **Swiss-Made Quality:** Known for precision and long-lasting durability, ideal for professional use.
- ◆ **ESD Safe Construction:** Prevents static damage to sensitive components during PCB tab cutting.
- ◆ **Maximum PCB Thickness:** Can cut boards up to 1.5mm thick.
- ◆ **Max Tab Length:** Designed for cutting tabs up to 2.0mm in length.
- ◆ **Ergonomic Design:** Offers comfort during use, reducing hand fatigue during prolonged tasks.
- ◆ **Ideal for PCB Tab Cutting:** Specifically designed for efficient, clean separation of PCB tabs in multi-circuit board production.
- ◆ Featuring an ESD-safe construction, this cutter protects sensitive electronic components from static damage during use

About the Weller Erem 884EPCM Side Cutter ESD

The Erem 884EPCM Side Cutter ESD is a premium Swiss-made tool designed for precise and clean PCB tab separation in multi-circuit board production.

Featuring an ESD-safe construction, this cutter protects sensitive electronic components from static damage during use.

With a 115mm cutting head, it offers flush cutting for smooth and accurate results, making it ideal for PCB manufacturing processes. Its ergonomic design ensures comfort and control, making it the perfect choice for professionals looking for high-quality, durable, and efficient cutting tools.

Specifications

Property	Detail
Flush Cutting Head	115mm
Application	ESD-protected areas, electronics mfg, cleanrooms
