

# Weller Erem Toolset 2450K - SMD 3 Piece ESD

SKU: E-2450K

## Features & Benefits

- ◆ **3-Piece ESD-Safe Tool Kit:** Comes in an ESD-safe plastic case for protection against electrostatic discharge.
- ◆ **Swiss-Made Quality:** High precision and durability, ideal for electronics and delicate tasks.
- ◆ **MagicSense Moulded Handles:** Soft-touch, ergonomic design for enhanced comfort and grip.
- ◆ **Induction-Hardened Cutting Edges (64-65 HRC):** Exceptional hardness for extended tool life and precision cuts.
- ◆ **High-Grade Tool Steel:** Non-reflecting surface and resharpenable for prolonged use.
- ◆ **Erem Magic Spring:** Provides a constant spring force, guaranteeing more than 1 million operations.
- ◆ **EMOS Maximum Opening Stop:** Prevents excessive handle opening, reducing hand fatigue during prolonged use.
- ◆ Featuring MagicSense moulded handles for comfort and grip, these tools offer exceptional durability, with induction-hardened cutting edges (64-65 HRC) for long-lasting performance

## About the Weller Erem Toolset 2450K - SMD 3 Piece ESD

The Erem Toolset 2450K - SMD 3 Piece ESD is a high-quality, Swiss-made tool kit designed for precision work in ESD-sensitive environments.

It comes in an ESD-safe plastic case and includes three essential tools: the 2412E Series 2400 MagicSense side cutter, 510AE stripping pliers, and the 2411P Series 2400 MagicSense needle nose pliers.

Featuring MagicSense moulded handles for comfort and grip, these tools offer exceptional durability, with induction-hardened cutting edges (64-65 HRC) for long-lasting performance.

The patented Erem Magic Spring ensures over 1 million operations, while the EMOS maximum opening stop reduces hand fatigue.
