

Weller Fume Extraction attachment kit with tube Ø 4.5mm

SKU: GW-S-2004

Features & Benefits

- ◆ Specifically designed for WMP, WMRP, and WXMP soldering irons
- ◆ Helps to maintain a clean and safe workspace by capturing harmful fumes
- ◆ Easy to install and use with Weller soldering equipment
- ◆ Essential for soldering operations where fume extraction is crucial for health and safety

About the Weller Fume Extraction attachment kit with tube Ø 4.5mm

The Fume Extraction Kit is designed specifically for use with Weller soldering irons, including the WMP, WMRP, and WXMP models.

This kit provides an efficient and convenient solution for capturing fumes directly at the source during soldering operations. It includes all the necessary components to set up a fume extraction system, helping to ensure a cleaner, safer working environment.

Kit Contains:

- **Extraction Tube** for directing fumes away from the work area
- **Tube Clip** for securing the extraction tube in place
- **Hose** for flexible, extended fume extraction
- **O-ring** to ensure a secure and airtight seal
- **Cord Clip** for organising and securing the components during use
