

Weller HAP 1 Hot Air Pencil SET

SKU: GW-HAP1-SET

Features & Benefits

- ◆ 24V AC heater voltage with 100W heater rating for reliable performance
- ◆ Adjustable temperature range from 50°C to 550°C for versatility
- ◆ Max. air flow rate of 10 l/min for optimal heat distribution
- ◆ Precision of +/- 30°C for consistent, accurate soldering
- ◆ ESD Safe for safe handling of sensitive electronic components
- ◆ Compatible with WR 2, WAD 101, WR 3M rework stations

About the Weller HAP 1 Hot Air Pencil SET

The Weller HAP 1 Hot Air Pencil Set is an essential tool for non-contact soldering and desoldering of SMD components, offering precise control for intricate rework applications.

This versatile set is compatible with WAD and WR series rework stations, providing controlled hot air for lead-free and leaded soldering tasks. With a finger switch on the handle for easy on/off operation, the Weller HAP 1 is designed to enhance precision and efficiency during rework processes.

The Weller HAP 1 Hot Air Pencil Set comes complete with the WDH 30 dry safety rest for secure storage and added safety. This tool is ideal for professionals needing high precision and flexibility in electronic repairs and component rework, making it a must-have for electronics technicians and repair specialists.
