About the Weller KH 20 - Rest for FE 75

The KH 20 Rest for FE 75 is a versatile safety rest designed to provide secure support for your FE 75, TCPS, W 101, and LR 21 soldering irons.

This durable stand ensures your soldering iron is safely stored when not in use, preventing accidental damage and extending the lifespan of your tool. The KH20 safety rest is engineered for easy access and quick storage, offering a practical solution for both professional soldering workstations and hobbyist setups. Whether you're performing intricate electronics repairs or general soldering tasks, the KH20 Stand enhances your workspace by keeping your iron in a secure, accessible position.
