

Weller Kit 1 EA FN

SKU: GW-FT-14

Features & Benefits

- ◆ **Universal Compatibility:** Suitable for all Zero Smog units
- ◆ **Effective Fume Capture:** Ø 60 mm diameter and 1.5 m length for flexible extraction
- ◆ **ALFA Funnel Nozzle:** Designed for efficient smoke and fume collection
- ◆ **Secure Installation:** Comes with a sturdy fixing clamp for easy mounting
- ◆ **High Durability:** Built to withstand demanding work environments
- ◆ Featuring a Ø 60 mm diameter and a 1.5 m length, this flexible arm allows precise positioning for optimal fume capture

About the Weller Kit 1 EA FN

The KIT 1 Extraction Arm is a highly effective fume extraction solution, designed to work with all Zero Smog units.

Featuring a Ø 60 mm diameter and a 1.5 m length, this flexible arm allows precise positioning for optimal fume capture. It includes an ALFA funnel nozzle for efficient extraction and a robust fixing clamp for secure mounting. Ideal for creating a safer and cleaner workspace, this extraction arm is perfect for soldering, welding, and other tasks that generate hazardous fumes.

Specifications

Property	Detail
Compact Dimensions	1600 mm (L)
Application	ESD-protected areas, electronics mfg, cleanrooms
