

Weller Metal Exhaust Hood

SKU: GW-S-6200

Features & Benefits

- ◆ **Optimal Fume Capture:** Designed for hot air soldering applications
- ◆ **Durable Metal Construction:** Sturdy black metal hood for long-term use
- ◆ **Extension Hose 60 Compatible:** Easily connects to the Extension Hose 60 for seamless integration
- ◆ **Improved Safety:** Helps keep the work environment free from harmful fumes during soldering tasks

About the Weller Metal Exhaust Hood

The Weller Metal Exhaust Hood is designed to effectively capture fumes generated during hot air soldering tasks.

With dimensions of 200 x 100mm (7.87 x 3.93in), this compact and durable black metal hood is ideal for use with Weller's hot air soldering systems.

It connects seamlessly with an Extension Hose 60 for easy integration into your workstation.

The robust construction ensures long-lasting performance, while its efficient design helps to maintain a cleaner, safer work environment by directing harmful fumes away from the user.
