

Weller PH 70 Safety Rest with Sponge

SKU: GW-PH-70

Features & Benefits

- ◆ **Safety rest for the Weller WEP 70 soldering iron** for safe storage when not in use
- ◆ Includes an integrated sponge for cleaning the soldering tip and maintaining performance
- ◆ Designed to protect both the soldering iron tip and the work surface
- ◆ Provides a stable and secure resting place to prevent accidental tip damage
- ◆ Ideal for soldering projects where frequent tip cleaning is required
- ◆ Compatible with Weller WEP 70 soldering iron for added convenience and safety

About the Weller PH 70 Safety Rest with Sponge

The Weller PH 70 Safety Rest with Sponge is designed specifically for use with the Weller WEP 70 soldering iron, providing a safe and convenient place to rest the iron during breaks or while switching between tasks.

This safety rest helps protect both the soldering iron and the work surface, ensuring that the hot tip is safely secured. The integrated sponge allows for easy cleaning of the soldering tip, ensuring optimal performance and temperature control during use.

The PH70 Safety Rest with Sponge ensures a clean and efficient soldering process, allowing you to maintain the soldering iron's lifespan while keeping your workspace safe and organised.
