

Weller Sloped Nozzle Ø31mm

SKU: GW-S-SN

Features & Benefits

- ◆ **Optimised Fume Capture:** Sloped design for targeted and efficient smoke removal
- ◆ **Precise Fit:** Ø 31 mm outside diameter and Ø 28 mm inside diameter, 100 mm length
- ◆ **Easy Click Compatibility:** Designed for seamless use with the Weller Easy Click system
- ◆ **ESD Safe:** Prevents static discharge, ideal for sensitive electronic workstations
- ◆ **Durable Construction:** Robust metal build for long-lasting, reliable performance

About the Weller Sloped Nozzle Ø31mm

The Weller Metal Sloped Nozzle is a high-quality accessory designed for use with 32 mm flexible extraction arms, offering efficient and precise fume capture.

With an outside diameter of Ø 31 mm and an inside diameter of Ø 28 mm, this 100 mm long nozzle ensures a secure fit and optimal airflow for effective smoke removal. Compatible with the Weller Easy Click system, it provides quick, reliable connections, while its ESD-safe design makes it perfect for sensitive electronic environments.
