

## Weller WCU Sensor (10 PCS)

SKU: GW-WCU-10

### Features & Benefits

- ◆ **10 sensors included** for comprehensive temperature measurement
- ◆ Specifically designed for use with the WCU Temperature Measurement Device
- ◆ Provides accurate and reliable temperature readings
- ◆ Ideal for precision work and temperature-sensitive applications
- ◆ Ensures optimal performance and functionality

### About the Weller WCU Sensor (10 PCS)

These sensors for the WCU Temperature Measurement Device are designed to provide accurate temperature readings for a wide range of applications.

With 10 sensors included, they are ideal for users who require precise and reliable temperature monitoring.

**Perfectly compatible with the WCU Temperature Measurement Device**, these sensors ensure optimal performance, making them essential for maintaining high standards in temperature-sensitive work environments.

### Specifications

Property	Detail
Application	ESD-protected areas, electronics mfg, cleanrooms
