

Weller WE 1010 Education Kit - 230V

SKU: GW-WE1010-E

Features & Benefits

- ◆ **70W Soldering Iron with Ergonomic Handle** The 70W soldering iron is equipped with an ergonomic handle for comfort during extended soldering sessions. Featuring tool-less tip change, you can quickly switch between different soldering tips (ETA 1.6mm and ETB 2.4mm) for various applications. This flexibility makes it an excellent choice for both beginners and experienced users.
- ◆ **ESD Safe Station & Soldering Iron** Both the soldering station and soldering iron are designed to be ESD safe, ensuring protection for sensitive electronic components from electrostatic discharge. The included heat-resistant silicon cable also ensures safe handling during use, reducing the risk of accidental damage.
- ◆ **Energy-Saving Features** The WE1010 soldering station includes a standby mode and auto setback functions that conserve energy when the unit is not in active use. This feature helps reduce power consumption and prolong the life of your equipment.
- ◆ **Password-Protected Settings** For enhanced security and to prevent unauthorised changes, the WE1010 station includes password protection that preserves your customised settings, making it ideal for educational and professional environments where consistent configurations are required.
- ◆ **170MN Shearcutter for Precision Cutting** This kit includes the 170MN general-purpose shearcutter, which is ESD safe and designed for diagonal and flush cutting. The cutter delivers significantly reduced mechanical shock to delicate components, ensuring safer handling and precise cutting for electronic projects.
- ◆ **WSW Solder Wire for Excellent Wetting Properties** The WSW SCN M1 solder wire (100g) included in the kit offers excellent wetting properties and is ideal for most general soldering applications. This high-quality solder wire ensures strong and reliable connections in electronic circuits.

About the Weller WE 1010 Education Kit - 230V

Weller WE1010 Education Kit – Precision Soldering for Learning and Professional Development

The Weller WE1010 Education Kit is the perfect solution for students, educators, and professionals who need a comprehensive, reliable soldering setup for electronic education, hands-on projects, and training.

This kit is designed to provide an ideal balance of precision, safety, and convenience, making it perfect for classrooms, workshops, and DIY enthusiasts.

Specifications:

- **Power:** 85 W
- **Temperature Range:** 100 - 450°C (200 - 850°F)
- **Heating Time:** 28 seconds (50°C to 350°C / 120°F to 660°F)
- **Temperature Accuracy:** ±5°C (±9°F)
- **Temperature Stability:** ±6°C (±10°F)
- **Tip Type:** ET Series Tips
- **Dimensions (L x W x H):** 150.0 x 120.0 x 98.0 mm
- **Voltage:** 230 V
- **Weight:** 3.07 kg
- **UPC:** 4003019441891

Perfect For:

- Soldering training in educational settings
- DIY electronics projects
- Electronics repair technicians
- Hobbyists and beginners learning soldering techniques
- Small electronics workshops

The Weller WE1010 Education Kit is the perfect soldering solution for those who want to combine quality, safety, and convenience in their educational or professional projects. Whether you're teaching soldering skills or working on intricate electronics projects, this kit ensures high-performance results every time.

Order the Weller WE1010 Education Kit today and take the next step in mastering precision soldering.
