

Weller WE 1010 Shield Kit

SKU: GW-WE1010-S

Features & Benefits

- ◆ **High-Performance 70W Soldering Iron** The 70W soldering iron offers fast heat-up and recovery times, ensuring precision and efficiency in your soldering projects. With tool-less tip changes, it allows for easy swaps and greater accuracy.
- ◆ **User-Friendly Digital LCD Display** The digital LCD screen on the Weller WE1010 soldering station provides clear temperature readings and easy navigation for temperature adjustments, making it perfect for both beginners and professionals. It also includes a standby mode to save energy.
- ◆ **Advanced ZeroSmog Filtration System** The ZeroSmog Shield is designed to capture harmful soldering fumes and airborne particles efficiently, ensuring a safer, healthier workspace. Its low-maintenance design with an easy-to-change filter helps maintain optimal performance over time.
- ◆ **ESD Safe & Antistatic Housing** Both the soldering station and ZeroSmog Shield are ESD safe to protect sensitive electronics from static discharge, making it suitable for a wide range of professional soldering tasks.
- ◆ **Quiet Operation & Optimal Work Environment** The ZeroSmog Shield operates at a noise level of just 50 dB(A), creating a quiet work environment that allows you to focus on your soldering projects without distraction.
- ◆ **Ergonomic Design & Work Light** The ergonomic soldering iron ensures comfortable use for long sessions, while the built-in work light illuminates your workspace, ensuring precision and accuracy in low-light conditions.
- ◆ **Portable & Stackable Design** This compact soldering station bundle is easily stackable and movable, making it convenient to store and transport, especially for those with limited workspace.

About the Weller WE 1010 Shield Kit

Weller WE1010 Soldering Station & ZeroSmog Shield Bundle – Perfect for Precise Soldering & Health Protection

Upgrade your soldering setup with the Weller WE1010 Soldering Station and ZeroSmog Shield Filtration Bundle—the ideal solution for precision soldering tasks while ensuring respiratory health.

This comprehensive soldering station bundle combines the reliable WE1010 soldering station with the advanced ZeroSmog Shield air filtration system, designed to capture harmful fumes and particles.

Whether you're a professional soldering technician, electronics hobbyist, or DIY enthusiast, this bundle provides a high-performance, health-conscious soldering experience.

Perfect For:

- Electronics professionals and repair technicians
- Hobbyists and DIY electronics enthusiasts
- Soldering beginners
- Small workshops and home labs

Invest in the Weller WE1010 Soldering Station & ZeroSmog Shield Bundle today to enjoy precise soldering performance and improved respiratory safety. Whether you're working on intricate soldering repairs, building electronics projects, or tackling everyday DIY tasks, this bundle ensures you get the job done with efficiency and peace of mind.
