

Weller WF 32 Extraction Arm

SKU: GW-S-6007

Features & Benefits

- ◆ **ESD Safe:** Prevents static build-up, ideal for sensitive electronic work
- ◆ **Effective Fume Capture:** Ø 32 mm diameter with a sloped 45° aluminium nozzle
- ◆ **Compact and Versatile:** Perfect for use with microscopes and delicate tasks
- ◆ **Durable Construction:** Built to withstand the rigours of a professional environment

About the Weller WF 32 Extraction Arm

The WF 32 Extraction Arm is a flexible and efficient fume extraction solution, perfect for precise applications such as microscope work.

With a 1m long arm and a Ø 32 mm diameter, this system provides optimal fume capture while maintaining flexibility. The sloped 45° aluminium nozzle ensures effective smoke removal, while the ESD-safe design prevents static build-up, making it ideal for sensitive electronics and workstations. Perfect for professionals looking for a high-performance, static-safe extraction arm.
