

Weller WR 2000A Hot Air Station SET

SKU: GW-WR2000A

Features & Benefits

- ◆ 2-channel digital station with simultaneous operation of two tools (up to 200W total).
- ◆ 300W power unit for reliable performance.
- ◆ HAP 1 Hot Air Iron (100W, 24V) for precise hot air applications.
- ◆ Includes hot air nozzles R04 and R06 for versatile heat delivery.
- ◆ Temperature control for both soldering and desoldering tools from 50°C - 550°C (150°F - 999°F), tool independent.
- ◆ Soldering irons (WP 80 / WP 120, WP 200 / WSP 150) with adjustable temperatures up to 450°C (850°F) and 550°C (950°F).
- ◆ Desoldering irons (DSX 80 / DXV 80 / DSX 120) with a temperature range of 50°C - 450°C (150°F - 850°F).
- ◆ Max vacuum of 0.7 bar and delivery rate of 10 l/min for precise desoldering.
- ◆ Hot air output up to 15 l/min for efficient heat distribution.
- ◆ ESD safe design to prevent damage to sensitive electronics.
- ◆ LCD display with intuitive temperature control buttons.
- ◆ Equipotential bonding for safety with a 3.5mm pawl socket.
- ◆ Featuring an adjustable temperature range from 50°C to 550°C (150°F - 999°F) for both the hot air iron and soldering/desoldering tools, this station offers temperature accuracy of $\pm 9^{\circ}\text{C}$ ($\pm 17^{\circ}\text{F}$) and temperature stability of $\pm 2^{\circ}\text{C}$ ($\pm 4^{\circ}\text{F}$), guaranteeing consistent results

About the Weller WR 2000A Hot Air Station SET

The Weller WR 2000A Hot Air Station is a powerful and versatile 2-channel repair station designed for precise soldering and desoldering work.

It is ideal for professionals who need to perform a wide range of electronic repairs. With a 300W power unit and a digital control system, this station allows the simultaneous operation of two soldering tools, providing total power output of 250W for efficient and reliable performance. The WR 2000A is ESD safe, ensuring the protection of sensitive components during repairs.

Featuring an adjustable temperature range from 50°C to 550°C (150°F - 999°F) for both the hot air iron and soldering/desoldering tools, this station offers temperature accuracy of $\pm 9^{\circ}\text{C}$ ($\pm 17^{\circ}\text{F}$) and temperature stability of $\pm 2^{\circ}\text{C}$ ($\pm 4^{\circ}\text{F}$), guaranteeing consistent results. The station is equipped with LCD display controls, making temperature adjustments quick and easy.

Perfect for small repair tasks, the Weller WR 2000A offers high-performance hot air soldering and desoldering, making it an essential tool for professionals who demand precision, reliability, and flexibility in their repair work.
