

Weller WS 81 Soldering Set

SKU: GW-WS81-S

Features & Benefits

- ◆ **(80W) WSP 80 Soldering Iron** The WSP 80 soldering iron is designed to offer excellent temperature control and durability. It provides quick heat-up and stable temperature during extended use, ensuring consistent results for a variety of soldering applications.
- ◆ **Silver-Line Technology** The Silver-Line Technology offers precise temperature regulation, ensuring accurate temperature control and stable performance. This is essential for soldering delicate components and achieving high-quality connections.
- ◆ **Analog Control for Simple Operation** This soldering station features easy-to-use analog temperature control, which allows you to set and adjust the temperature based on your needs. The simple dial makes it accessible for beginners while still offering reliability for professionals.
- ◆ **Equipotential Bonding Socket for Safety** The equipotential bonding socket (3.5mm pawl socket) on the back of the unit allows for secure grounding, ensuring safe operation and preventing electrostatic discharge (ESD) damage to sensitive components.
- ◆ **Compact and Lightweight Design** With dimensions of 170.0 x 118.0 x 102.0 mm and a weight of just 1.89 kg, the Weller WS 81 is compact and easy to store, making it perfect for workshops or labs where space is limited.

About the Weller WS 81 Soldering Set

Weller WS 81 Soldering Station – Reliable 80W Analog Soldering for Precision Work

The Weller WS 81 Set is an essential soldering station for anyone looking for reliable, high-performance equipment for electronic repairs, DIY projects, and professional soldering tasks.

Featuring the WSP 80 soldering iron, this analogue unit delivers robust performance with an 80W power output and Silver-Line Technology for precise temperature control.

Whether you're a hobbyist, technician, or educator, the Weller WS 81 Soldering Station provides a reliable solution for all your soldering needs.

Specifications:

- Power: 95W
- Temperature Range: 150°C - 450°C (302°F - 842°F)
- Temperature Accuracy: ±9°C (±17°F)
- Dimensions (L x W x H): 170.0 x 118.0 x 102.0 mm
- Voltage: 230V
- Weight: 1.89 kg
- UPC: 037103305350
- Number of Channels: 1
- Equipotential Bonding Socket: 3.5mm pawl socket (hard grounded)

Perfect For:

- Professional soldering technicians
- DIY electronics enthusiasts
- Soldering in workshops and repair shops
- Educational settings for hands-on learning

The Weller WS 81 Soldering Station is a fantastic choice for those looking for precise and reliable soldering equipment. Whether you are performing electronic repairs, creating DIY electronics projects, or teaching soldering techniques, this analog soldering station is designed to meet your needs with ease and precision.

Get the Weller WS 81 Soldering Station today and experience high-quality, professional-grade soldering!
