

# Weller WT1010M Soldering Set

SKU: GW-WT1010M

## Features & Benefits

- ◆ **Compact Design for Space Efficiency** The WT1010M is a single-channel soldering station that combines powerful performance with a compact footprint. Its sleek design helps maximize your workspace while maintaining high performance for micro and standard soldering applications.
- ◆ **Powerful Performance with RTM Tips** Equipped with Weller's RTM Tips featuring active tip technology, the WT1010M delivers extremely fast heat-up times (just 5 seconds), allowing for continuous workflow and faster task completion. The active tips ensure fast heat recovery, making the station ideal for high-productivity environments.
- ◆ **Versatile Compatibility** The WT1010M can seamlessly integrate with both nano and micro tools using active tip technology and also supports passive tip technology. This flexibility ensures you have a soldering solution for a wide range of tasks, from delicate micro soldering to larger applications, all in one tool.
- ◆ **Incredible Heat-Up and Recovery Speed** With 5-second heat-up times, the WT1010M maximises productivity by reducing waiting periods, enabling quicker start times, and minimising downtime. This leads to faster job completion, improving overall efficiency in the workshop.
- ◆ **Multiple Tool Connections** The WT1010M allows you to connect up to 10 different soldering tools to a single station, enhancing flexibility and reducing the need for multiple devices. Whether you need active tips for high-performance work or cost-effective tools for everyday tasks, the WT1010M provides the solution.
- ◆ **Stackable Units for Convenience** The WT soldering stations can be stacked, saving valuable space in your workshop. This feature helps keep your workspace organised while still providing access to multiple stations and tools.
- ◆ **Health & Safety Features** For a safer work environment, the WT1010M can be connected to a Weller ZeroSmog fume extraction unit. This ensures that harmful soldering fumes are efficiently removed, safeguarding your health during extended soldering sessions.
- ◆ **User-Friendly Interface** The WT1010M features a graphical, backlit LC display with an intuitive menu structure. The easy-to-read display, combined with features like OFF time, process window, lock function, and offset adjustment, makes it simple to control the soldering station, even during complex tasks.
- ◆ **Reduced Footprint & Convenient Storage** Despite its high-performance capabilities, the WT1010M takes up minimal space, and the housing cover can also be used for tool storage. The stackable design ensures an efficient workspace without sacrificing performance.

## About the Weller WT1010M Soldering Set

### Weller WT1010M - 1 Channel Micro Soldering Kit (95W) – Compact, Powerful, and Versatile for Unmatched Productivity

The Weller WT1010M Micro Soldering Kit is the perfect solution for professionals and enthusiasts who demand precision, speed, and efficiency in their soldering tasks. Whether you're working on micro soldering, standard electronics, or complex applications, this compact yet powerful soldering station is designed to boost productivity and streamline your workspace.

#### Specifications:

- **Power Consumption:** 95W
- **Temperature Range:** 50°C - 450°C / 550°C (depending on tool)
- **Temperature Accuracy:** ±9°C
- **Temperature Stability:** ±2°C
- **Voltage:** 230V / 50Hz
- **Fuse:** 230V (mA)T500
- **Dimensions (L x W x H):** 150 x 130 x 101 mm
- **Weight:** 1.9 kg
- **Mil-Spec:** Yes
- **ESD Safe:** Yes
- **UPC:** 4003019449316

#### Perfect For:

- Micro soldering applications
- Electronics repair and prototyping
- DIY electronics enthusiasts
- Professional soldering technicians
- Workshops and labs

Boost your productivity with the Weller WT1010M Micro Soldering Kit. Whether you're soldering delicate components or working on larger electronics projects, this compact, powerful, and versatile soldering station ensures you can handle any task with precision and speed. Order the Weller WT1010M today and take your soldering to the next level!
