

Weller WT 1013 Soldering Station

SKU: GW-WT1013

Features & Benefits

- ◆ **WP 80 Soldering Iron:** Offers precise and comfortable handling with a short tip-to-grip design for standard soldering applications.
- ◆ **LT Tip Family Compatibility:** Use a wide range of tips for varied soldering tasks, allowing maximum flexibility.
- ◆ **Power Unit 1 Channel:** Delivers powerful soldering performance for high-quality results.
- ◆ **Space-Saving Stackable Design:** Allows multiple units to be stacked on top of each other to optimise workspace.
- ◆ **Inclined Display:** Provides a natural viewing angle, enhancing ease of use.
- ◆ **Clear Graphics:** Intuitive and easy-to-understand settings and parameters displayed at a glance.
- ◆ **Uncluttered Control Panel:** Front panel design keeps all important functions within reach for user-friendly operation.
- ◆ **Menu Button for Easy Navigation:** Quick access to menu options, ensuring efficient use and operation.
- ◆ **Cost-Effective and Environmentally Friendly:** Designed with environmental impact in mind, offering sustainable performance.
- ◆ **ESD Safe:** Ensures safe handling of electronic components by preventing electrostatic discharge (ESD).
- ◆ The Weller WT 1013 Soldering Station offers a powerful and versatile soldering solution, featuring the WP 80 Soldering Iron and Safety Rest WSR 201

About the Weller WT 1013 Soldering Station

The Weller WT 1013 Soldering Station offers a powerful and versatile soldering solution, featuring the WP 80 Soldering Iron and Safety Rest WSR 201.

This station is perfect for all standard soldering applications, particularly in ESD-sensitive environments, where precision and reliability are crucial.

The WP 80 Soldering Iron is designed with a short tip-to-grip design, providing better control and allowing users to work comfortably and efficiently.

Compatible with the LT tip family, the soldering iron offers exceptional flexibility to handle various types of soldering tasks.

Part of the new WT line, the Weller WT 1013 Soldering Station stands out not only for its high performance but also for its environmentally friendly and cost-effective design. Its stackable feature allows multiple units to be placed on top of each other, saving valuable desk space in any workspace. The inclined display ensures a natural viewing angle for easy parameter reading, while the clear, intuitive graphics make adjusting settings quick and straightforward. The front control panel is sleek and user-friendly, allowing for efficient operation, and the menu button ensures seamless navigation through the station's settings.

The Weller WT 1013 Soldering Station is the perfect tool for professionals looking for a high-performance, user-friendly, and eco-conscious soldering solution. Whether you're working in electronics manufacturing, repair, or assembly, this soldering station offers the precision and reliability needed for high-quality, repeatable results. Its stackable design, intuitive display, and cost-effective features make it a great choice for any ESD-safe workspace.
