

# Weller WT HA1 Hot Air Station 900W

SKU: GW-WTHA1

## Features & Benefits

- ◆ 900W hot air station with integrated hot air iron, ideal for repair, rework, and heating tasks.
- ◆ Electronically controlled temperature for precise temperature adjustments.
- ◆ Brushless turbine ensures consistent airflow and efficient heating.
- ◆ Up to 5 pre-set profiles for automatic execution, simplifying complex tasks.
- ◆ Compact design with a reduced footprint and stackable housing, perfect for tight workspaces.
- ◆ Clear menu structure for easy and intuitive operation.
- ◆ Housing cover doubles as storage, reducing clutter and keeping tools organised.
- ◆ Safety rest for the hot air iron, ensuring safe and convenient tool storage.
- ◆ ESD-safe design to protect sensitive electronic components from static discharge.
- ◆ Fixed hot air iron for increased durability and long-term performance.
- ◆ Featuring an integrated hot air iron, this versatile tool ensures accurate temperature control and a seamless experience for tasks like SMD rework, component desoldering, and heat shrink applications
- ◆ The station features a brushless turbine, which ensures consistent and efficient airflow, making it suitable for delicate and precise work

## About the Weller WT HA1 Hot Air Station 900W

The Weller WT HA1 Hot Air Station is a 900W hot air station designed for a wide range of heating and repair tasks, offering both precision and ease of use.

Featuring an integrated hot air iron, this versatile tool ensures accurate temperature control and a seamless experience for tasks like SMD rework, component desoldering, and heat shrink applications.

With its electronically controlled temperature, the WT HA1 provides reliable heat management, allowing users to adjust the hot air flow for optimal performance. The station features a brushless turbine, which ensures consistent and efficient airflow, making it suitable for delicate and precise work. Whether you're working with small SMD components or larger electronic assemblies, the Weller WT HA1 provides the control you need for high-quality results.

The unit's user-friendly interface includes a clear menu structure for intuitive operation, while the station's reduced footprint and stackable design make it perfect for workspaces where space is at a premium. Additionally, the WT HA1 comes with up to five pre-set profiles, allowing for automatic task execution based on your specific needs. The housing cover doubles as storage, ensuring that your workspace remains tidy and organised.

Included with the unit is a safety rest for secure storage of the hot air iron, ensuring safe handling during breaks or between tasks. The fixed hot air iron is designed for long-lasting durability, and the unit is ESD-safe to protect sensitive components from damage.

### Compatible with:

- TNR 40 hot air round nozzle Ø 4 mm
- TNR 25 hot air round nozzle Ø 2.5 mm
- TNR 70 hot air round nozzle Ø 7 mm
- TNRB 17 hot air round nozzle bent Ø 1.7 mm x 45°
- TNRB 60 hot air round nozzle bent Ø 6 mm x 45°
- TNA Adapter

**NON STOCKED ITEM.**
