

Weller WXMT MS Slim Tweezers Set

SKU: GW-WXMT-MS-SET

Features & Benefits

- ◆ **Intelligent Micro Desoldering Tweezers:** The WXMT MS is a dual-tip soldering tool that incorporates Active Tip Heating Technology for fast and accurate heat transfer. It provides efficient heating across both tips, enabling precise soldering and desoldering of SMD components.
- ◆ **RTW2MS Tips:** The set comes equipped with RTW2MS tips, which are optimised for fine desoldering applications, especially in micro soldering tasks where precision is paramount.
- ◆ **Quick Heat-Up Time:** Thanks to Active Tip Heating Technology, the tweezers heat up rapidly, allowing you to work efficiently without long wait times.
- ◆ **ESD Safe:** The tweezers and safety rest are ESD-safe, protecting sensitive components from electrostatic discharge during use.
- ◆ **WX Station Compatibility:** This set is designed to work seamlessly with Weller WX stations, offering full compatibility and easy integration into your existing setup.
- ◆ **Technical Specifications:** Power: 2 x 40W (total 80W) Voltage: 12V Temperature Range: 100°C - 450°C (212°F - 850°F) Heating Time: Rapid heat-up due to Active Tip Heating Technology Tip Range: RTW2MS Tips WX Station Compatibility: Fully compatible with Weller WX series power units Safety Features: ESD-safe The Weller WX MT MS Slim Tweezers Set is an exceptional tool for professionals working with SMD components, especially those that require high energy for soldering and desoldering

About the Weller WXMT MS Slim Tweezers Set

The Weller WXMT MS Slim Tweezers Set is a high-performance soldering and desoldering tool specifically designed for working with SMD (Surface-Mounted Device) components, especially those with a high energy demand.

This set is compatible with Weller WX stations and offers versatile, precision performance in aerospace, electronics, medical devices, military, and automotive industries.

Technical Specifications:

- Power: 2 x 40W (total 80W)
- Voltage: 12V
- Temperature Range: 100°C - 450°C (212°F - 850°F)
- Heating Time: Rapid heat-up due to Active Tip Heating Technology
- Tip Range: RTW2MS Tips
- WX Station Compatibility: Fully compatible with Weller WX series power units
- Safety Features: ESD-safe

The Weller WX MT MS Slim Tweezers Set is an exceptional tool for professionals working with SMD components, especially those that require high energy for soldering and desoldering. Whether you're working on aerospace, electronics, medical devices, or military applications, this set provides the precision and power needed to handle fine, high-demand components. With dual 40W power, rapid heat-up, and ESD-safe features, it's the perfect solution for anyone needing high-quality, efficient micro desoldering in a wide range of industries.

Specifications

Property	Detail
Power	40W
Voltage	12V, providing steady, controlled power for both soldering and desoldering tasks
Application	ESD-protected areas, electronics mfg, cleanrooms
