

# Weller WXPP MS Soldering Set

SKU: GW-WXPP-MS-SET

## Features & Benefits

- ◆ Patented active tip technology for superior performance and precision
- ◆ Weller WX stations compatibility for seamless integration
- ◆ Intelligent Pico Soldering Iron WXPP MS 12V, 40W for ultra-fine work
- ◆ RTP004SMS tip designed for miniature components
- ◆ Erem Tweezers 5SA for precise handling of small parts
- ◆ SAC M1 0.2mm solder wire (10g) for high-quality connections
- ◆ Safety Rest WSR 208 for secure and easy storage

## About the Weller WXPP MS Soldering Set

The Weller WXPP MS Soldering Set is the ultimate tool for miniature soldering applications, providing precision and reliability for components as small as 01005.

Designed for use under a microscope, this set is perfect for industries such as aerospace, electronics, medical devices, military, and automotive.

This user-friendly set ensures high process reliability for delicate soldering jobs, making it a must-have for professionals in the electronics and high-precision industries.
