

Weller WXUP MS Soldering Set

SKU: GW-WXUP-SET

Features & Benefits

- ◆ Intelligent Micro Soldering Iron WXUP MS 24V/150W for heavy-duty applications
- ◆ RTU032SMS tip for optimal performance in high-power tasks
- ◆ Safety Rest WSR 200 for secure, convenient tool storage
- ◆ Patented active tip technology for precise, reliable soldering

About the Weller WXUP MS Soldering Set

The Weller WXUP MS Soldering Set is designed for heavy-duty soldering applications, offering exceptional power and precision.

Equipped with triple-awarded, patented active tip technology, this set is fully compatible with Weller WX stations and is ideal for tasks in LED soldering, solar technology, multi-layer boards, large heat sinks, and hyper-frequency PCBs. Its powerful performance makes it perfect for industries requiring high-power soldering with efficient heat dissipation.

This user-friendly set ensures maximum efficiency, providing the high power needed for complex and demanding soldering projects in the electronics market and beyond. The Weller WX UP MS Soldering Set is your go-to tool for tackling large-scale soldering with ease and precision.
