

Weller WX - 2M Connecting Cable

SKU: GW-S-6053

Features & Benefits

- ◆ 2-metre long connecting cable for enhanced flexibility
- ◆ Compatible with Weller WX and WT soldering stations
- ◆ Can be connected to WX and WHP Hotplates
- ◆ Works with Zero Smog 4V Filtration systems
- ◆ Durable and reliable for seamless integration across Weller equipment

About the Weller WX - 2M Connecting Cable

The Weller WX-2M Connecting Cable offers a versatile and reliable solution for connecting your Weller WX and WT soldering stations.

With a 2-metre length, this high-quality cable provides flexibility in positioning your equipment.

Compatible with WX and WHP Hotplates, as well as the Zero Smog 4V Filtration systems, it ensures seamless integration across multiple Weller products.

Ideal for professionals seeking to expand their soldering setup, the WX-2M cable helps maintain efficient and organised workstations.
